100% Chitosan Hemostatic Dressing

axiostat®

stops bleeding, instantly

- Sterile, ready to use
- Effective on patients on blood thinners
- Can be cut, folded, stuffed into deep wounds
- Painless removal - irrigate with saline
- 3 yr shelf-life
- Hypoallergenic, no known side-effects

Axiostat is a sterile, single use, non-absorbable haemostatic dressing intended to be used for temporary control of bleeding wounds. Axiostat stops moderate to severe bleeding due to cuts, abrasions, lacerations, punctures, venous or arterial bleeding.
